

# A CREATIVE PROJECT

## Textured Collage

Create a 3D picture using the types of materials you can find at home. Make a landscape or a self-portrait.

### Materials:

Feathers, wool, thread, fabric/felt, recycled cardboard, tissue paper, coloured card, ice-block sticks, scissors, pencils, backing card, glue.

### Instructions:

- 1 Draw a landscape or a self-portrait on a piece of card. Make your drawing simple so you'll be able to add materials to it easily.
- 2 Use whatever materials you can find and stick them on – the wackier the better. Think about colours and patterns, as well as textures and different thicknesses. Consider cutting, ripping or unravelling as different ways to achieve mixed textures.

Share a photo of your creation and tag us using [#AucklandArtGallery](#) and [#ArtBubbles](#)
