

CONTEMPORARY NEW ZEALAND PAINTING 1964

In this exhibition, a similar pattern has been followed to those arranged in 1961-62-63. It has always been our policy to introduce new artists in this annual exhibition, besides the more established painters, and a large number of fresh names are introduced this year. We hope that this exhibition will give some impression of the vitality of contemporary painting in New Zealand. —P. A. Tomory
