## 1. AGENDA AND APOLOGIES

The Chair opened the confidential meeting and a karakia was recited.

The Chair noted that there were no apologies.

## 2. 25 JUNE 2025 AND 2 JULY 2025 CONFIDENTIAL MINUTES AND ACTION TRACKER

The Board requested one amendment to the 25 June 2025 confidential minutes (delete bullet point 2 p.2).

The Board requested one amendment to the 2 July 2025 confidential minutes (word change bullet point 4 p. 3 CE Confidential Update)

Subject to the amendments discussed being made, the Board:

1. **Approved** the 25 June 2025 and 2 July 2025 confidential minutes as accurate records of the meetings; and
2. **Noted** the Action Tracker.

### 3. BOARD AGENDA DISCUSSION

The Board discussed the agenda for the meeting.

- The Board and Management discussed the recent transition of TAU's Economic Development (ED) team to Council and the movement of the net asset value (also the 'purchase price') following the finalisation of asset balances on 30 June. The net asset value reduced from \$6.3m to \$3.2m largely driven by the June 'passage of time' adjustments relating to the remaining leases of GridAKL and Lysaght Street properties.
- Management noted that the implementation agreement for the transition provided for an adjustment amount to be part of the purchase price, which is treated as an adjustment to the intercompany balance. Consequently, the change to the net asset value / purchase price does not need any additional board approval (the implementation agreement and transactions under it being previously approved).
- Management noted that as the 'contributed equity' was approved by the Board based on the 'proforma assessment' of net assets at the time, the subsequent amendment in value has been reflected in a smaller reduction to the accumulated surplus than originally estimated.

The Board:

1. **Noted** the final net asset value / purchase price of the ED team transition from TAU to Council (approximately \$3.12m) and the reasons for the reduction following the finalisation of asset balances on 30 June.
2. **Noted** that final net asset value / purchase price has been confirmed in accordance with the implementation agreement, and the change in value has been reflected in a smaller reduction to TAU's accumulated surplus account with Council.

## 5. PERFORMING ARTS WORKSHOP

Dan Clarke presented to the Board.

- Management noted that TAU's Performing Arts rūpū / Auckland Live has made good progress over the last year. With the appointment of the new Performing Arts director, the team has reviewed its mission and developed the draft Auckland Live strategic roadmap in conjunction with other areas of TAU and stakeholders.
- Auckland Live is a leader in programming and presentation of performing arts, culture, entertainment, events and experiences in Tāmaki Makaurau Auckland. Auckland Live's focus is on access and opportunities for the enjoyment and inspiration of Auckland's many communities and visitors, every day. Nationally, Auckland Live is Aotearoa New Zealand's largest performing arts presenter and producer of live performing arts events in theatre, dance, music and arts festivals.
- The draft Auckland Live roadmap acknowledges that Māori performing arts and creative expression enriches our cultural landscape and celebrates the unique identity of Tāmaki Makaurau Auckland. Auckland Live supports thriving and highly visible toi whakaari Māori, working in partnership with Māori artists, communities, hapū and iwi to celebrate and grow Māori performing arts.
- The Board queried how Auckland Live intends to work with Auckland venues that are outside of TAU. Management noted that – in keeping with the rest of TAU – the team will always take a 'what is best for Auckland?' approach which means working closely with the broader sector and asking where the best places for performances are. Auckland Live will be looking to meet and workshop with partners and stakeholders to align and work together to deliver an agreed vision for Tāmaki Makaurau.
- The Board commended the draft Auckland Live strategic roadmap and provided further feedback. For the roadmap to be as successful as possible, it needs to be supported by the rest of TAU, the Council Group, and Auckland's elected leaders. This particularly applies to public areas such as Aotea Square where there is a complicated matrix of ownership and roles.

The Board **endorsed** the draft Auckland Live roadmap and the planned development of the roadmap.

*The Chair closed the confidential meeting and opened the public meeting.*

Also, the wording in the reports regarding the growing risk to TAU, Council and Auckland's reputation due to major events funding uncertainty should be further strengthened.

Subject to the Board's feedback being incorporated, the Board:

# Chief Executive Report

Report to the Board of Tātaki Auckland Unlimited, 26 August 2025

## 1. Introduction

- Earlier this month we launched the new Auckland Council Events brand on behalf of the Auckland Council Group. The new brand is designed to help Aucklanders more easily identify which events and activations are being funded, delivered and sponsored by the council group, regardless of which part of the group they are delivered by. From the 2025 BNZ Auckland Diwali Festival in October onwards, events and activations will carry the Auckland Council Events brand.
- Significant additional City Centre Targeted Rate funding for activity that TAU will help deliver has been endorsed by the City Centre Advisory Panel. The Visitor Attraction Boost funding totals \$60.5m over the next six years to drive visitor attraction into the city centre (\$7m for this financial year) and Midtown/Aotea Arts Quarter funding of \$75.45m over the next 12 years will enhance the area's role as the cultural and civic heart of Auckland and the iconic bookend to Te Komititanga on Queen Street, within the Waihorotiu Valley.
- The Council passed a change to the Unitary Plan removing the need to obtain a resource consent to film on sites and places of cultural significance. This is a significant achievement for Tātaki which led and managed a long careful process of consultation with mana whenua and the screen industry to remove regulatory over reach that had become a significant risk to Tamaki Makaurau's attractiveness as a destination for the screen industry.
- Total visitation at Auckland Zoo and Auckland Art Gallery are substantially ahead of target for the first month of the year (20% and 35% respectively). For the zoo, **Dinosaur Nights and Lights** and for the gallery **A Century of Modern Art** are proving to be "blockbusters", and very good winter programming from a visitation point of view. (A special shout out to Auckland Live for **Wharenui Harikoa** **The Art of Banksy** for creative programming that is helping to bring and hold people in the city centre)
- This month we have included some enhancements to the CE Report both to align it with our recently signed off SOI and to provide the board with some new data in a more accessible format. Board feedback on the enhancements is welcomed.

This will replace the *Destination AKL 2025* strategy which was due for renewal.   - **Transitioning existing event activity** TAU will formally receive the events and new events leadership responsibilities from the council as per the decisions outlined in the May 2025 CCO Reform Decision document. Through this programme of work TAU also intends to progress an Auckland Council Event approach to hosting and invitations.

### LGOIMA Requests

## KPI RESULTS

### Media coverage mentioning TAU

Media mentions **decreased by 63%** this month, attributed in part to the loss of Economic Development from monthly reporting. This is illustrated by coverage of the State of the City report— which TAU did the comms/media prep for — this garnered 53 media mentions and would have accounted for an additional 21% of media mentions but is now attributed to Auckland Council.

### Discover Auckland Platform Performance

**Sessions:** Interaction of an individual user with a website within a specified time period e.g. a session initiates when a user opens website, and no session is currently active

2.7m sessions over the past 12 months, with a 107% uplift in July 2025 vs 2024, driven by stronger paid social & organic search (event-related queries) across Domestic and Australian market.

**Conversions:** The number of referrals/links to 3rd party sites, file downloads, form submissions and Login/Sign up to accounts that have occurred over time.

Top operator referrals for July were Gravity X, Odyssey Sensory Maze and Running Grid. The top event links The Art of Banksy, Takapuna Winter Lights and Wharenui Harikoa.

### Equivalent Advertising Value (EAV) of TAU media coverage

In July, there was a **41% decrease** in EAV, compounded by a diminished Major Events programme during this period. (July 2024 saw the World Choir Games and July 2023, the FIFA World Cup). Coverage was driven by several key developments: record attendance at MEETINGS 2025; the withdrawal of the Auckland Arena bid for Western Springs Stadium EOI; implementation of the council reforms, and the first solar powered major sporting match at Go Media Stadium.

**Note:** The new media service (from July 2024) rates equivalent advertising value (EAV) differently to the previous provider and therefore results are not directly comparable with last year.

### Screen Permits Issued

The number of screen permits issued in July 2025 (41) was slightly lower than July 2024 (43).

## Māori outcomes

- **Cultural capability programme:** TAU launched the third iteration of Taki, its cultural competency app, in July. This enhanced version features accurate pronunciation resources for Tāmaki Makaurau and Aotearoa place names, comprehensive protocols for pōwhiri and mihi whakatau at TAU, instructional content on hongi and harirū, plus an expanded interactive quiz. Work also progressed on the development of a Māori Engagement Framework for TAU. The current focus is on the development of a two part workshop designed to equip kaimahi with essential knowledge and skills for meaningful engagement, alongside complementary planning resources and guidance tools.
- **Pou Hononga connectors hui:** TAU's quarterly Pou Hononga hui took place in early July, bringing together the organisation's network of connectors who collaborate with peers and leadership to ensure a cohesive approach to developing and implementing the Māori Outcomes Plan, *Te Mahere Aronga* (TMA). The half-day session featured updates on the council's new Māori outcomes performance framework, Tāmaki Ora, and its implications for the next iteration of TMA and future applications to the Māori Outcomes Fund. The hui also included a presentation by guest speaker, Hon Kiritapu Allen.

### Tuakiri Ora | Culture, Identity and Wellbeing

- **Te Wiki o Te Reo Māori (14-20 Sept):** Planning is underway to commemorate the 50th anniversary of Te Wiki o Te Reo Māori across TAU with a programme of activities designed to celebrate and promote te Reo Māori as an official language of Aotearoa. This milestone anniversary presents a significant opportunity to strengthen TAU's commitment to te Tiriti o Waitangi obligations and demonstrate meaningful support for Māori language revitalisation.
- **Wharenuī Harikoa:** Māori Outcomes supported the promotion of the *Wharenuī Harikoa* exhibition at The Civic ( 27 July) through targeted outreach to Māori communities. This project advanced dual Te Mahere Aronga priorities: amplifying kaupapa Māori content within TAU programming and improving whānau engagement across TAU spaces. Developed by creative practitioners Lissy and Rudi Robinson-Cole, Wharenuī Harikoa features a distinctive crocheted meeting house that harmoniously blends ancestral Māori methodologies with modern artistic innovation. The exhibition attracted more than **17,000 visitors** throughout its three-week run, highlighting how kaupapa Māori creative works can captivate broad audiences while honouring cultural traditions and values.
- **Auckland Zoo:** The Zoo hosted 933 Mana Whenua and Mātāwaka in July through the Wellbeing in Nature Community programme. Due to its success, the programme has been extended to October

## Enabling activity

### ICT Enhancement

- **AI:**
  - Work is commencing to develop an AI Strategy to identify the key areas where TAU can maximise the benefits provided by AI, from a perspective of the development of new products and also the ability to create efficiencies throughout back office areas, such as the Custom GPTs (currently being developed by the Digital team)
  - The Governance group approved an AI tools onboarding process which evaluates cyber security, organisational risk and cost. The most recent addition has been for web code development.
  - The user group is developing an understanding of the impact of AI on LGOIMA, and continues to deliver AI prompt training.
  - TAU is still waiting for the council pilot of Co Pilot 365 to be approved before it can conduct a POC to determine the value proposition. In the interim paid Chat GPT licenses are being provided where the use case requires them.
  - AI Impact Project remains on track, with Sprint 3 now complete. This sprint focused on the events sector, including workshops on customer jobs to-be-done, data commercialisation, B2B opportunities, and a future vision for events. Sprint 4 is now underway, with an emphasis on developing a strategic roadmap. An additional workshop has been added, extending the sprint by one week to support further stakeholder engagement.
- The **CRM team** is on track to deliver a POC for the approval process for strategic invitations for Cirque Du Soleil. The next focus for the team is to incorporate Tourism specific functionality into the Destination solution.
- **Data Governance and Culture:** TAU continues to leverage the GSS Data workstream to adopt and adapt five key data governance policies in line with TAU's Data strategy and culture, and in addition are reviewing how GSS Data training material can be adapted to include TAU examples rather than council centric ones. The team are working both with the data champions and on projects to define Critical Data Elements, with a focus on Events data ahead of the launch of the Auckland Events Calendar for summer.
- **Enterprise data platform** – technical work to enhance the platform and ingest Eventfinda data to support the launch of the Auckland Events Calendar for summer.
- **Dexibit** – ticketing data from Ticketmaster is being validated to support the automation of venue utilisation calculations, for both ALAC and Auckland Stadiums
