

Brian & Sally

MR. FIX-IT

Brian is the handy-man that can fix anything! He looks after all the ships at the Maritime Museum making sure they are all in working order, as well as keeping the museums marina free from rubbish using a pool skimmer.

You wont see Brian without his handy helper Sally the Seagull. She is his eyes in the sky search for stray rubbish in the marina and she also makes sure Brian is looked after and well feed, though she keeps all the hot chips to herself.
