

**Kia ora! I'm Marina, a Māui dolphin.
Drawing is one of my favourite activities!
I love learning new techniques to help me draw the different
things I see in the world.
Learn how to draw a boat with me!**

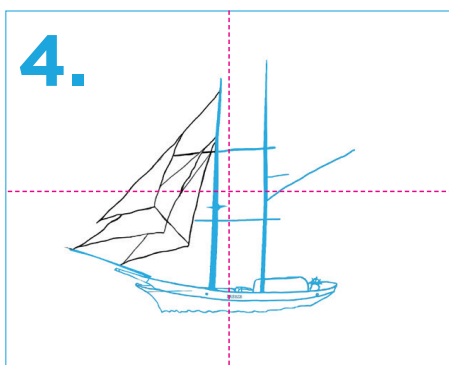

Make guide lines and draw the boats hull.

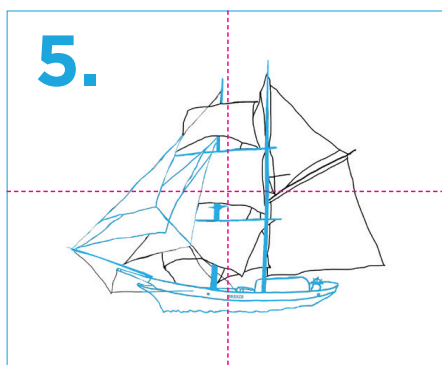

Add the top features of the boat, including the helm, cabin and bowsprit.

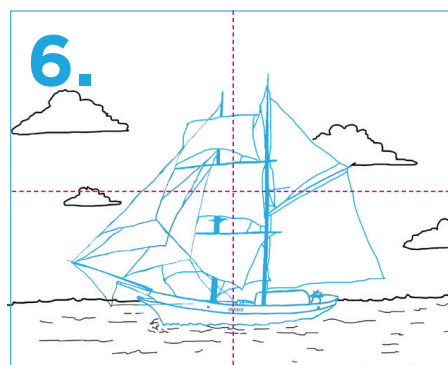

Add the masts.

Add first set of sails to the front of the boat.

Add the rest of the sails by overlapping them along each mast line.

Finish with clouds and small rolling waves. Now you've drawn an awesome boat!
