

Dance *like a* flamingo

STEP 1 Head flagging

Stretch your neck with head held high, now turn your head from side to side.

STEP 2 Wing salute

Show off the contrasting colours with your arms and neck outstretched.

STEP 3 Twist-preen

Twist your torso, bend your knees and look down at the ground.

STEP 4 Marching

With your flock, walk together as one, before switching direction abruptly.

Now that you know how to do the flamingo dance, put the moves together and take a video.
