Make a giraffe picture

Things you need:

- Masking tape
- A surface to create it on – this could be a fence, wall, concrete, piece of paper...
- Chalk (or pens, paint, pencils, crayons...)

Just like the giraffe at the Zoo!

Step 1: Make a giraffe outline with masking tape

Step 2: Add thin masking tape strips to the inside of your giraffe to make the pattern

Step 3: Colour in the giraffe

Step 4: Remove the masking tape

Well done you've finished!
Step back and marvel at your giraffe!
